ESCAPE THE GRIND.

Escape the grind on your body & the grind on your mind.

When it comes to boating, thrill-seekers, anglers, and water sports enthusiasts alike will agree that traveling through the waves can be a bruising experience for your spine. What many boaters don’t realize is that over the long-term, high-speed watercraft can expose them to a dangerous accumulation of impacts that can cause chronic pain and debilitating injuries.

The lessons we’ve learned from the world’s most demanding fast-boat operators have been adapted into marine seating for the pleasure boater, fisherman, or yacht owner. Experience the difference of the world’s most advanced shock mitigation technology and get to your destination faster, safer and ready for action with SHOXS.

“The industry’s most trusted supplier of shock mitigation seating technology.”
The SHOXS X Series is a versatile range of solutions of shock-mitigating pedestals and interchangeable seat buckets. Mount a SHOXS seat or nearly any marine helm seat in the industry on top of the X4 or X8 pedestal, and enjoy the benefits of a smoother, more comfortable day on the water.
SHOXS X4.

The most versatile shock mitigating seat mount ever built.

The SHOXS X4 shock mitigating pedestals transform any seat into a safer, smoother ride with professional-grade shock mitigation technology. The design is based on the world’s best military shock mitigation systems, and the technology has been field-proven in the toughest conditions on the planet. We’ve adapted the same impact-absorbing system into a sleek, compact unit designed for recreational and commercial vessels that will integrate with SHOXS bucket or jockey seating, or nearly any helm seat available on the market today.

The X Pedestal is equipped with an adjustable mounting flange for mounting in nearly any helm layout. Pedestals can be mounted directly onto the deck, in confined spaces or on deck-mounted boxes. The X4 can be adjusted for each occupant’s weight using an air compressor or hand pump* at two convenient access ports.

“Leading safety standards and reducing injury to those who are active on the water.”

*Not included upon purchase.
Features

+ No Pinch Points
+ 4.4” (112 mm) Suspension Travel
+ Military Technology (Commercial and Recreational Use)
+ Anodized Aluminum for Exterior Marine Applications
+ Multiple Adapters to Mount Any Seat (incl. SHOXS)
+ SHOXS Adjustable Air Spring Technology
+ For New Construction and Refit

Options + Compatibility

+ Height Adjustment
+ Fore/Aft Slider
+ Black or Silver Finish

Compatible with almost any boat seat including:
+ SHOXS 3200, 3400, 3700, 3900
+ Llebroc, Recaro, Attwood, Garelick, Taco, Bentley,
Pompanette + more
X4 DIMENSIONS.

See the X-Series in action at shoxs.com/landing/x-series.
FUNCTION + CLASS.
SHOXS X8.

For extreme boating conditions or a taller ride height.

For more extreme boating conditions or a taller ride height, the X8 provides a lengthy 8 inches of travel, easily absorbing the most punishing impacts. The pedestal's compact footprint makes it suitable for mounting in confined spaces and can be recessed in deck-mounted boxes or installed directly on the deck's surface. Installation is quick and hassle-free, with multiple mounting configurations.

The X8, with longer suspension travel than the X4, also allows the ability to accommodate a wider range of occupant weights.

The X8 can be adjusted for each occupant's weight using and air compressor or hand pump* at two convenient access ports.

“Leading safety standards and reducing injury to those who are active on the water.”

*Not included upon purchase.
Features

+ No Pinch Points
+ 8” (203 mm) Suspension Travel
+ Military Technology (Commercial and Recreational Use)
+ Anodized Aluminum for Exterior Marine Applications

3400-X8.

Take larger impacts with style.

The 3400-X8 features eight inches of suspension travel combined with the 3400 bucket seat for a taller ride height and increased shock mitigation capacity.

- Suspension Travel 8” (203 mm)
- Anodized Aluminum Finish (Silver or Black)
- Grey/Black Waterproof Marine Vinyl Upholstery
- UV Stable and Mold Resistant

For reference only. Detailed technical drawings available at shoxs.com/downloads.
3700-X4.

Sit or Stand at the helm.
A Fold-up bolster cushion can be moved out of the way with ease depending on the operator's preference. Four inches of suspension travel for impact mitigation in mild to moderate conditions.

+ Suspension Travel 4.4” (112 mm)
+ Anodized Aluminum Finish (Silver or Black)
+ Grey/Black Waterproof Marine Vinyl Upholstery
+ UV Stable and Mold Resistant

For reference only. Detailed technical drawings available at shoxs.com/downloads.
3700-X8.

Built for rougher conditions.

The 3700-X8 features a SHOXS 3700 bucket seat with folding bolster cushion combined with an X8 shock mitigating pedestal for a taller ridge height and increased impact absorbing capability.

+ Suspension Travel 8” (203 mm)
+ Anodized Aluminum Finish (Silver or Black)
+ Grey/Black Waterproof Marine Vinyl Upholstery
+ UV Stable and Mold Resistant

Popular Options

+ Height Adjustment
+ Fore/Aft Slider
+ Adjustable Suspension
+ Armrests (Standard + Wide)
+ Storage/Chart Pocket
+ Hand Grips
+ 2/4 Point Harness (Lap Belt)
+ 360° Swivel
+ Armrest Mounted Controls

For reference only. Detailed technical drawings available at shoxs.com/downloads.
3900-X4.

Compact shock mitigation.

Combine the SHOXS aluminum jockey seat with the X4 for a low profile design that maximizes cockpit space in open boats, RHIBs, tour boats, dive/snorkel adventure boats and more.

- Suspension Travel 4.4” (112 mm)
- Anodized Aluminum Finish (Silver or Black)
- Grey/Black Waterproof Marine Vinyl Upholstery
- UV Stable and Mold Resistant

For reference only. Detailed technical drawings available at shoxs.com/downloads.

Popular Options
- Height Adjustment
- Adjustable Suspension
3900-X8.

Maximum protection.

Designed for open boats, RHIBs and crew/passenger transport vessels. Typically mounted to the deck, the 3900 X8 offers a taller ride height and maximum protection from wave impact.

+ Suspension Travel 8” (203 mm)
+ Anodized Aluminum Finish (Silver or Black)
+ Grey/Black Waterproof Marine Vinyl Upholstery
+ UV Stable and Mold Resistant

+ ACCESSORIES.
**Height Adjust**

A spring-loaded knob raises and lowers height up to 4 inches to allow an ergonomic fit for occupants of any height. The dual function shock mitigation and height adjustment is only available from SHOXS.

**Fore/Aft Slider**

Adjust seat fore and aft up to 6 inches (152 mm) in the 3400 and 3700 buckets, and up to 4.5 inches (114 mm) in the 3200 seat.

**360° Swivel**

Lateral movement in either direction with eight different locking points allow occupant to face any direction.

**Footrest**

An adjustable height, anodized aluminum platform mounted between pedestal and seat buckets provides a secure hold for feet.

More accessories available at shoxs.com/category/accessories.
Tall Backrest/Headrest
An anodized aluminum structure provides additional head support.

Chart Pocket
Store small items quickly and securely within arm’s reach with the chart pocket. A handy way to keep gear close and protected from ocean spray and prevent items from falling overboard.

Lap Belt
The quick release, aircraft-style buckle allows occupants to egress the seat with little to no delay. The buckle is operable with a single hand.

Arm Rests + Hand Grips
Ergonomic placement and design make the arm rests and hand grips a safe, secure way to increase passenger stability during rough water operation with rubber grips naturally positioned on the armrest.
